

Your Local News Hand Delivered

Today, it's easier than ever to find information - national news casts, blogs and social networking sites - we know that you have a number of options when receiving information.

But what newspapers deliver is something more than a snippet, an opinion or a sound-byte. Your newspaper is a reflection of the community it serves.

And it takes a dedicated carrier force to deliver your community's news to your home daily, weekly and throughout the year.

**October 10th is
National Carrier Day**

**Take a moment and thank your
carrier for their dedication
and service.**
